

**Quick Release Mounts for Sim Rigs**

**QR4rigs®**

*Change your rig in seconds, spend more time in the game!*

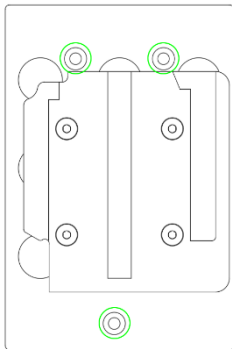

**The QRPro System is designed for rapid mount/dismount of controllers on your rig!**

**Note: you will need a QRPro Base Mount to use this adapter.**

### Fitting the QRPro Thrustmaster TCA Boeing Throttle QR Plate Kit

This adapter is designed to fit to a single TCA Boeing Throttle only.

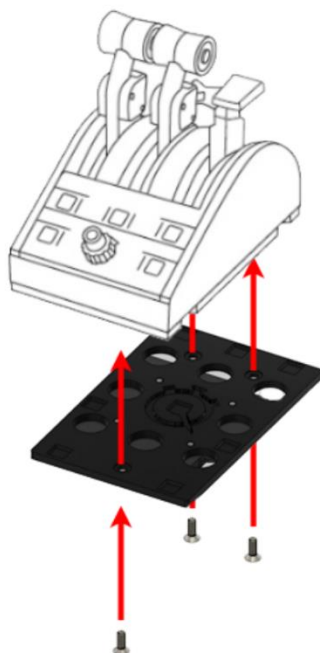

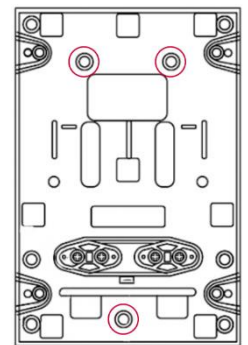

- The QRPro TCA Boeing Throttle QR Plate Kit come assembled to facilitate the mounting on to a QRPro Base Mount from the rear of your rig towards the front.

- The Adapter Plate on top of the QR Plate can be flipped around to suit your needs by removing the 4x M6x14mm CSK screws, rotating the plate in 90° increments and fixing back in your chosen orientation.

- Locate the fixing holes on the underside of the QRPro TCA Boeing Throttle QR Plate Kit highlighted in green circles in the picture on the left.

- Flip over the TCA Boeing Throttle and locate the 3 mounting M6 holes on the bottom highlighted in red circles in the picture on the right.

- Use 3x M6x16mm Countersunk Screws provided through the base of the Adapter Plate's 3 mounting holes and fix into the base of the TCA Boeing Throttle.
